

## *Expanded Services Brings You Telecommunications and Network Services*

You want the best communications tools available to do your job effectively and efficiently. Our business is to provide network services that deliver the best value and innovations to support our customers' missions worldwide. We want your business relationship with GSA Network Services, Expanded Services, to be both rewarding and successful.

Our purchase process is as easy as 1-2-3. Submit a request for services or equipment, discuss specific needs with one of our specialists and provide us with the appropriate funding documentation.

We use a variety of contract vehicles to meet your requirements – GSA Schedules, ASP (Aggregated System Procurement), MAA (Metropolitan Area Acquisition), WACS (Wire and Cable Services) and acquisitions tailored to your needs.
